The Integrative Medicine providers do not contract with insurance companies and therefore will not submit claims or conduct any business with those insurance carriers. For all patients, payment in full is expected at the time of your appointment. If requested, the staff will provide you with a receipt, including Diagnosis and procedure codes, for you to submit to your insurance carrier for direct, out of network reimbursement. It is solely the responsibility of the patient to interact with their insurance company to obtain reimbursement.

The Integrative Medicine providers do not guarantee that all or any reimbursement will be given from your carrier.
